

LEVELSYSTEM

Caravan Compact LEVELSYSTEM

*Level indicator

E&P Hydraulics has once again set a new bench in stress-free and effective levelling. The Compact **LEVELSYSTEM** is perfect for those caravanners who still want the stability, security and assistance with the tricky side-to-side caravan levelling, but at a more affordable cost.

mark

"It's extended our caravanning life by another 15 years! Simple to use and great value for money"

Mr Braithwaite, Lincoln.

SIMPLE STEPS

It really is as easy as 1... 2... 3...

- ① Automatically deploy the axle jacks by pressing the 'auto level' button.
- ② Manually adjust the jockey wheel to aid with the front to back levelling. Listen for the beep when you are perfectly level!
- ③ Deploy your corner steadies as you normally would.

ARRIVE **PUSH BUTTON** RELAX

HOW DOES IT WORK?

The Compact Caravan **LEVELSYSTEM** uses just 2 hydraulic axle jacks, both of which can either be automatically or manually deployed using the control panel or optional hand held remote, giving you full control over the caravan stabilising process. You can use the jockey wheel to aid with the front to back levelling and then deploy the existing corner steadies as you normally would. The inbuilt spirit level indicator means you no longer need to carry a spirit level with you!

SIMPLE FACTS

- Effortlessly stable at the push of a button
- Sturdy and vibration-free position
- Maintenance-free
- Completely hydraulic jacks avoid getting stuck in the mud!
- Compatible with motor movers
- Easy setup
- Ready for immediate use
- Improved waste water drainage from sink & shower
- Additional theft protection
- Kind to chassis frames, suspension and tyres
- No wear and tear

TECHNICAL DATA

- For caravans/special trailers with a total weight of up to 3.5 tonnes
- 240 watt hydraulic motor
- 12 Volt operating voltage
- The hydraulic caravan rams are powered by the leisure battery
- 2 year warranty
- Emergency **push** button retraction
- System weighs only 20kg (approximately)
- Very low current draw

REMOTE CONTROL

The wireless hand-held remote control allows you to freely manoeuvre around the caravan, keeping a watchful eye on any possible obstructions or safety hazards. Or just sit in the car, out of the rain whilst the 2 minute levelling process completes.

EMERGENCY HAND PUMP

For an extra back up, should your battery ever run flat, the emergency hand pump is available as an optional extra for your own peace of mind. Although we hope you will never need it!
